Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This final office action is in response to the paper filed on 12/19/2006

The amendments to the specification have been acknowledged.

Status of Claims

Claims 1-3 and 6-14 are pending and under examination. Claims 4, 5, and 15-19 are cancelled.

Rejections and Objections Withdrawn

1. The objection to the specification regarding drawings is withdrawn in view of the amendments submitted on 12/19/2006.
2. The rejection of claims 1-3 under 35 USC 103(a) as being unpatentable over Vuorio et al. (WO 97/17988) in view of Burgeson et al. (U.S. 2003/0143356 A1) is withdrawn in view of the amendments to the claims. Applicants amended claim 1 as to state that the instant method is for generating a secreted disulfide bond-linked trimeric fusion protein, and the prior art references under prior obviousness rejection do not provide any reference or motivation to produce a trimeric fusion protein that is linked by a disulfide bond. Therefore, the rejection is withdrawn.

Objections to Claims and Specification

Thought the specification and claims the proper naming for sequences should look like that: "SEQ ID NO:1" or "SEQ ID NOs:1-2" for example.

New matter added to the claims

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-3, 6-14, and 20-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 1, as amended, presents a new matter issues because the amendments do not find support in the specification. In claim 1, as amended Applicants state that "trimeric fusion protein containing three ligand binding domains, wherein said trimeric fusion protein has an increased binding affinity to a ligand than a monomeric ligand binding domain." This phrase constitutes a new matter.

If to the contrary, Applicants are required to specifically point out in the specification when the support can be found for claim 1, as amended, specifically in the reference to the phrase aforementioned above.

Claims 2, 3, 6-14, and 20-27 are included in this rejection because they depend from rejected independent claim 1 and do not cure the deficiencies under the instant rejection.

Conclusion

No claims are allowed.

The new rejections were necessitated by Applicants amendments to the claims.

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
